Step 2: Checking for Funder Mandates
IEEE understands that certain funders may have specific requirements that authors must adhere to remain eligible for funding. In order to assist you in meeting these requirements, please indicate below if your paper has been funded in part by an organization that carries a grant-based mandate.
If your work has been funded by an organization on the list below, please select it (if you select one of the funders listed you will receive additional instructions on steps needed to fulfill your requirements. If your funder is not on the list, please select "My work was not funded by an organization on the list")

What is a funder or research mandate?
Funders often require that grantees make their peer-reviewed publications publicly available, usually by posting a pre-print of the work within a sanctioned repository.
IEEE has partnered with a selection of funders to assist with the process by providing authors instructions based on their specific mandate.

Employment status = copyright status
An author's copyright status is determined to a large extent by the type of employer for whom the author works. For example, if you are employed by the U.S. Government, and you are the sole author of your paper, then you should select "Employed by United States Government."
Similarly, if you are the sole author and you are employed by a Crown Government (or if you and all your coauthors are Crown Government employees), then copyright to your paper will remain with the Crown Government. You should select "Employed by a Crown Government."

#### AUTHOR RESPONSIBILITIES

The IEEE distributes its technical publications throughout the world and wants to ensure that the material submitted to its publication is properly available to its readership. Authors must ensure that their Work meets the requirements as stated in section 8.2.1 of the IEEE PSPB Operations Manual, including provisions covering originality, authorship, author responsibilities and author misconduct. More information on IEEE's publishing principles may be found at http://www.ieee.org/publications_standards/publications/rights/author_publication_principles.html. Authors are advised especially of IEEE PSPB Operations Manual section 8.2.1.B.12: "It is the responsibility of the authors, not the IEEE, to determine whether disclosure of their material requires the prior consent of other parties and, if so, to obtain it." Authors are also advised of IEEE PSPB Operations Manual section 8.1.1.B: "Statements and opinions given in work published by the IEEE are the expression of the authors."

#### RETAINED RIGHTS/TERMS AND CONDITIONS

- Authors/employers retain all proprietary rights in any process, procedure, or article of manufacture described in the Work.
- Authors/employers may reproduce or authorize others to reproduce the Work, material extracted verbatim from the Work, or derivative works for the author's personal use or for company use, provided that the source and the IEEE copyright notice are indicated, the copies are not used in any way that implies IEEE endorsement of a product or service of any employer, and the copies themselves are not offered for sale.
- Although authors are permitted to re-use all or portions of the Work in other works, this does not include granting third-party requests for reprinting, republishing, or other types of re-use. The IEEE Intellectual Property Rights office must handle all such third-party requests.
- Authors whose work was performed under a grant from a government funding agency are free to fulfill any deposit mandates from that funding agency.

#### AUTHOR ONLINE USE
