OPEN CALL

Let's Create Exceptional Events Together for the 50th Jubilee MIPRO 2027!

Opatija, Croatia, 31 May – 4 June 2027

Dear colleagues, partners, and friends of MIPRO,

The 50th anniversary of MIPRO marks an exceptional milestone in scientific, technological, and economic development. Over the past five decades, MIPRO has brought together scientists, experts, business leaders, and innovators, contributing to the development of our digital future.

We aim to celebrate this Golden Jubilee with a major programme initiative – original events that will surprise, inspire, connect people, and open new perspectives for the future.
We therefore announce an **Open Call for Proposals for Additional Programme Events**, inviting creative and ambitious contributions. The most outstanding and attractive proposals will be selected for inclusion in the official programme of the 50th Jubilee MIPRO 2027.

What Kind of Proposals Are We Looking for?

We welcome original concepts that go beyond traditional conference formats, particularly:

- Interactive demonstrations of artificial intelligence, robotics, and autonomous systems.
- Engaging technological experiments, demonstration platforms, and live showcases of innovative solutions.
- Future-oriented forums and interdisciplinary discussions on the future of technology and society.
- New approaches to connecting science, industry, and international research communities.
- Competitive technology challenges and initiatives engaging young talent.
- Scientific and technological exhibitions, digital art, and creative visualisations.
- Other original initiatives with the potential to become signature events of the MIPRO Golden Jubilee.

We are not simply looking for interesting topics. We are looking for events that offer new experiences and create lasting value.

Who Can Submit a Proposal?

The call is open to scientific and educational institutions, technology companies, innovation organisations, research groups, professional associations, students, and creative individuals from Croatia and abroad.

Submission and Selection

Proposals must include the event title, a brief concept summary, a description of its originality and expected impact, the proposed format, organisers and partners, and an outline of the organisational requirements and financial arrangements.

Submitted proposals will be evaluated by the MIPRO Programme Committee and organising bodies according to the following criteria:

Originality – Attractiveness – Scientific and Technological Value – International Potential – Feasibility.

Selected proposals will be further developed in cooperation with their proponents and, subject to agreement on organisational arrangements, incorporated into the official programme of the 50th Jubilee MIPRO.

Submission deadline: 1 December 2026

Submit proposals to: mipro@mipro.hr

Become a Co-Creator of the Golden Jubilee!

Fifty years of MIPRO is not only an opportunity to celebrate past achievements, but also a chance to open new pathways for development, particularly through artificial intelligence. Propose an event that will be remembered and help make the 50th Jubilee MIPRO a truly exceptional occasion!

Kind regards,

K. Skala Chair of the MIPRO Programme Committee
